Sprint 2 Contributions — Cheyma Abidi

Role: Developer (Resume Management, Profile Management, Sprint Planning & Task Breakdown)

Summary

Contributed to Sprint 2 by taking responsibility for resume management (excluding resume upload) and profile management. Helped plan sprint deliverables, break down requirements into development tasks and organize implementation work to support the team's progress throughout the sprint.

Key Contributions

Sprint Planning & Task Breakdown (with Sudhansu): 1 hr 45

- Participated in planning Sprint 2 deliverables and identifying the work required to implement features.
- Broke down larger requirements into smaller development tasks.
- Helped clarify feature scope, implementation steps and task dependencies.

Resume Management: 4 hr 30

- Took responsibility for resume management functionality beyond the initial resume upload flow.
- Worked on organizing and managing resumes within the application.
- Contributed to the resume management user experience and integration with the existing application.

Profile Management: 7 hours

- Took responsibility for implementing profile management functionality.
- Worked on enabling users to view and manage their profile information within the application.
- Contributed to the profile management interface and its integration with the existing application structure.
